

UJAWAL PANDA

Hyderabad, Telangana, India | 7207958195 | ujawalpanda.02@gmail.com | linkedin.com/in/ujawal-panda-2305b2315

Professional Summary

Aspiring AI & ML Engineer and B.Tech Computer Science (Specialization in AI/ML) with a strong academic record. Focused on designing scalable automation workflows, mastering algorithms in C, and applying data-centric approaches to solve complex engineering challenges.

Projects & Achievements

Fintech Innovation: SRMPay | Lead Designer

Global Venture Summit (E-Cell)

- Secured 2nd Prize at a Global Venture Summit for a conceptualized payment ecosystem designed for campus transactions.
- Architected the user flow and secure transaction logic to reduce payment friction.
- Presented the business model and technical roadmap to global venture capitalists.

Legal-Tech Platform: Vakil Setu | Project Lead

VIT Ideathon (Regional Rank 2)

- Achieved Regional Rank 2 for an innovative platform designed to automate and simplify legal accessibility for the public.
- Engineered a rapid prototype focusing on workflow automation and user-centric design.

Ezlo – Hyperlocal Service Aggregator (Semester 1)

- **Team Leadership:** Led a team of 11 members to conceptualize and build a unified web platform under the tagline "Life Made Easy."
- **Product Development:** Developed a centralized web interface aggregating fragmented on-demand services (food, medicine, mobility, and home maintenance) into a single user experience.
- **Key Contribution:** Streamlined access to daily necessities by designing a solution that connects users with diverse local service providers in one app.

Code Day Hackathon

Hyderabad, India

- **Winner (Web Development):** Awarded Best in Class for building a functional prototype under strict time constraints.
- Collaborated with a team to implement rapid problem-solving strategies and deploy the solution.

Education

SRM University AP

— 2025 – 2029

- B.Tech in Computer Science and Engineering (Specialization in AI/ML)
- **SGPA:** 9.39 / 10.0 (Semester 1)
- Focus : High-Performance computing and Artificial Intelligence

Army Public School (APS)

— July 2023 – May 2025

- **Senior Secondary (Class XII):** Completed with focus on Science and Mathematics.

Army Public School (APS)

— April 2014 – May 2023

- **Secondary (Class X):** High academic standing; recipient of multiple proficiency awards.

Technical Skills

- **Programming:** Python (NumPy, Pandas, Matplotlib), C (Core Programming), HTML5, CSS.
- **Databases:** MySQL (Relational Databases).
- **Tools & Concepts:** First-Principles Thinking, Data Visualization, Rapid Prototyping, Git/GitHub.
- **Fields of Interest:** AI/ML, Backend Engineering, Distributed Systems, Fintech Architecture

Honors & Achievement

- **Gold Medalist, Mathematics:** Awarded by the All-India School Mathematics Teacher Association for outstanding performance.
- **Olympiad Rank Holder:** Received Certificate of Excellence in the National Level Science Olympiad and All India Talent Search Examination.

Certifications

- Introduction to Data Science and AI (CODE IIT-Madras)
- AI Tools and ChatGPT for Rapid Development (be10X)
- Best in Class - Web Development (Code Day Hackathon)
